MSc Project Management · Project Support & Controls · Trilingual (English, French, Arabic)

Liverpool, UK (open to relocating) · +44 7771 071562 · achrafdaou69@gmail.com · linkedin.com/in/achraf-daou · Right to work in the UK

PROFILE

MSc Project Management student with five years supporting live construction projects, from scheduling and cost tracking to procurement and site records across more than fifteen jobs. Precise with figures and documentation, comfortable in Excel, PRINCE2 and data analytics, and recently shadowed a project manager on a major rail programme to see how large infrastructure is run day to day. Keen to bring that mix of hands-on delivery and formal training into a graduate project or project controls role and add value quickly.

SKILLS

Project Controls & Delivery	Cost tracking and budget control · Project scheduling · Progress and milestone monitoring · Risk management · Change control · Procurement and supplier coordination · Project documentation and reporting · Project lifecycle from initiation to handover · PRINCE2 methodology
Reporting, Data & Tools	Microsoft Excel (formulas, pivot tables, lookups) · Microsoft Project · Power BI · Data analysis · KPIs and performance metrics · Dashboards and data visualisation · Microsoft Office · Google Workspace · AI tools for reporting and documents
Business & Commercial	Operations management · Business analysis · Budgeting and forecasting · Cost and variance analysis · Process improvement · Strategy and planning · Decision making · Economics
Communication & People	Client and stakeholder liaison · Supplier negotiation · Report and proposal writing · Presentations · Team leadership · Committee and event coordination · Conflict management and de-escalation
Personal Effectiveness	Attention to detail · Organisation and prioritisation · Meeting deadlines · Problem solving · Adaptability · Working under pressure · Health and safety awareness
Languages	English (fluent) · French (fluent) · Arabic (fluent)

WORK EXPERIENCE

Operations Management & Project Support

Apr 2020 to Present

M2C Maroc · Kénitra, Morocco

- Coordinate **planning and scheduling across 15 or more construction and maintenance projects**, typically MAD 100,000 to 500,000 (about £8,000 to £40,000), tracking progress against milestones from initiation to handover.
- Track **cost and material spend against budget** on 2 to 5 concurrent projects, flagging variances early so decisions are made on current figures rather than estimates.
- Manage a **supplier base of over 20**, coordinating orders and resolving supply issues before they affect the programme.
- Build and maintain **cost logs, project records and site documentation in Excel**, consolidating supplier and site data into regular progress and cost summaries for the business owner.
- Introduced **AI and digital tools** into routine reporting and document work, cutting time spent on administration.

Job Shadowing, Construction Project Manager

Summer 2025

ONCF, Office National des Chemins de Fer · Rabat, Morocco

- Arranged a **volunteer placement** to shadow a project manager on ONCF's rail programme in Rabat, linked to the planned 3.3 km tunnel under the Bou Regreg river between Rabat Agdal and Salé.
- Followed the project manager through full working weeks: site walks, progress meetings with contractors and the engineer, and the reporting that followed.

- Learned how a large public infrastructure job is controlled day to day, how the master programme is broken into activities, and how site instructions, requests for information and design queries are logged and chased between client, designer and contractor.

President, Moroccan Global Society

Sep 2023 to Jun 2025

University of Huddersfield Students' Union · UK

- Led a committee delivering a full programme of events for **over 100 members**, planning schedules, allocating tasks and tracking delivery to deadline.
- Managed the **society budget**, monitored spend against allocation and reported activity to the Students' Union.
- Won **Best Global Society** and the **Social Media Award**, competing against larger and longer-established societies.

Student Course Representative

Sep 2021 to Jun 2022

University of Huddersfield ISC · UK

- Chosen to **represent 40 students**, gathering feedback, raising issues with tutors and course leaders, and following each one through to resolution.

Administrative Assistant

Feb 2019 to Aug 2019

STE Wild Five Nine SARL · Morocco

- Maintained invoices, delivery documentation and client records, checking figures and details for accuracy before filing.
- Used **Microsoft Excel and Office daily** to log operational data, track deliveries and produce records for the manager.
